Art and Educational Publishers,

SUBSCRIPTION DEPARTMENT.

Boston, May 14 1878

Dr. George Engelmann,

St. Louis, Mo.

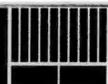

Dear Sir,

Referring to the enclosed note from Mr. Meehan we have the pleasure of sending you by this post sample copies of parts 1 & 2 of his work on the "Flowers & Ferns of the U. S.," which we are about ready to publish.

We have also put in the parcel a few unfinished proofs from the plates of some of the forthcoming numbers. All will be printed in the style of those in numbers 1 & 2.

As Mr. Meehan says, we have risked a great deal in this enterprise. We have undertaken it in the firm faith, that work well done in this line and furnished at a popular price would meet with very general acceptance, and we submit these samples as an earnest of our intention and our faith in the enterprise.

We trust the work will commend itself to your good judgment, and that we may

be favored with such an endorsement of it, as
will commend it to others,

We remain,

Dear Sir,

Yours very truly
